AN AVERAGE DAY ON MOON BASE IDIOT, A LUNAR MINING COLONY AT THE FAR REACHES OF THE GALAXY...

WHERE A LONE I.T. PRO IS LOCKED IN BATTLE WITH HIS NEMESIS: THE OFFICE PRINTER.

WITH VITAL COMMUNICATIONS SILENT ACROSS THE BASE, THE I.T. PRO GEARS UP AND JOURNEYS OVER THE TREACHEROUS LUNAR WASTES TO INSPECT THE COMMUNICATIONS POWER STATION.

HMM, THAT'S ODD.
THE FIRMWARE IS
OUTDATED. SOMEONE
COULD EXPLOIT THAT
TO POWER DOWN THE
UPS. I'LL NEED TO GO
TO EACH UNIT TO
UPDATE THE
FIRMWARE...

WAIT! WITH THE EATON
SPX G2 UPS AND CYBERSECURE
NETWORK CARD, I CAN UPDATE
FIRMWARE ON ALL THE UNITS AT
ONCE FROM HERE, LIKE THIS...

CLICK

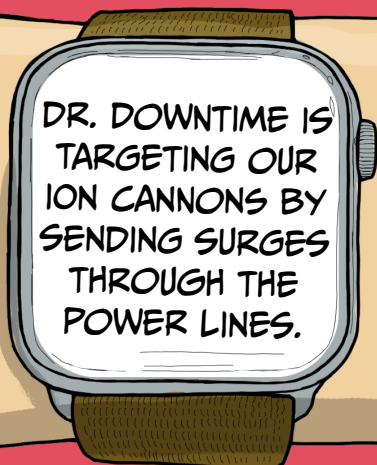

RETURN TO
BASE! OUR
DEFENSE
SYSTEMS ARE
UNDER ATTACK!

GOOD ONE,
DOC.

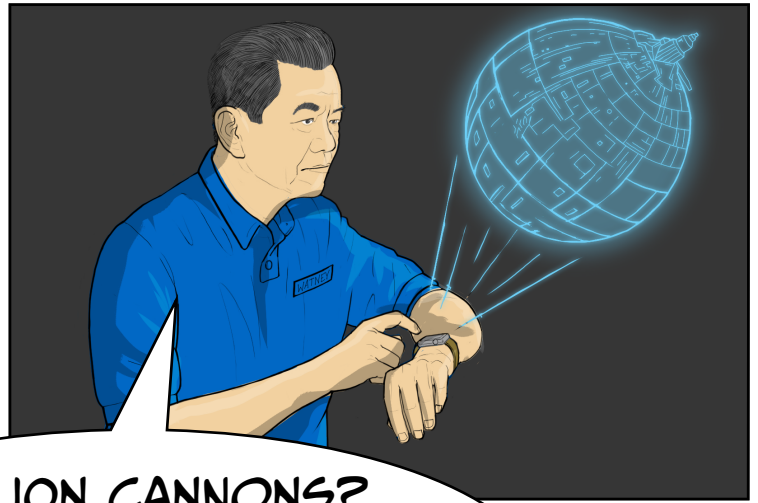

WHEN THOSE
DEFENSES SHUT
DOWN, I WILL FINALLY
TAKE WHAT'S MINE!
HAHAHAHA! MINE!

THE COMMS OUTAGE IS JUST A DIVERSION! IT'S
LURED THE I.T. PRO AWAY — SO THE EVIL DR.
DOWNTIME COULD DISABLE IDIOT'S DEFENSE
PERIMETER AND LAUNCH AN ASSAULT!

ED-209

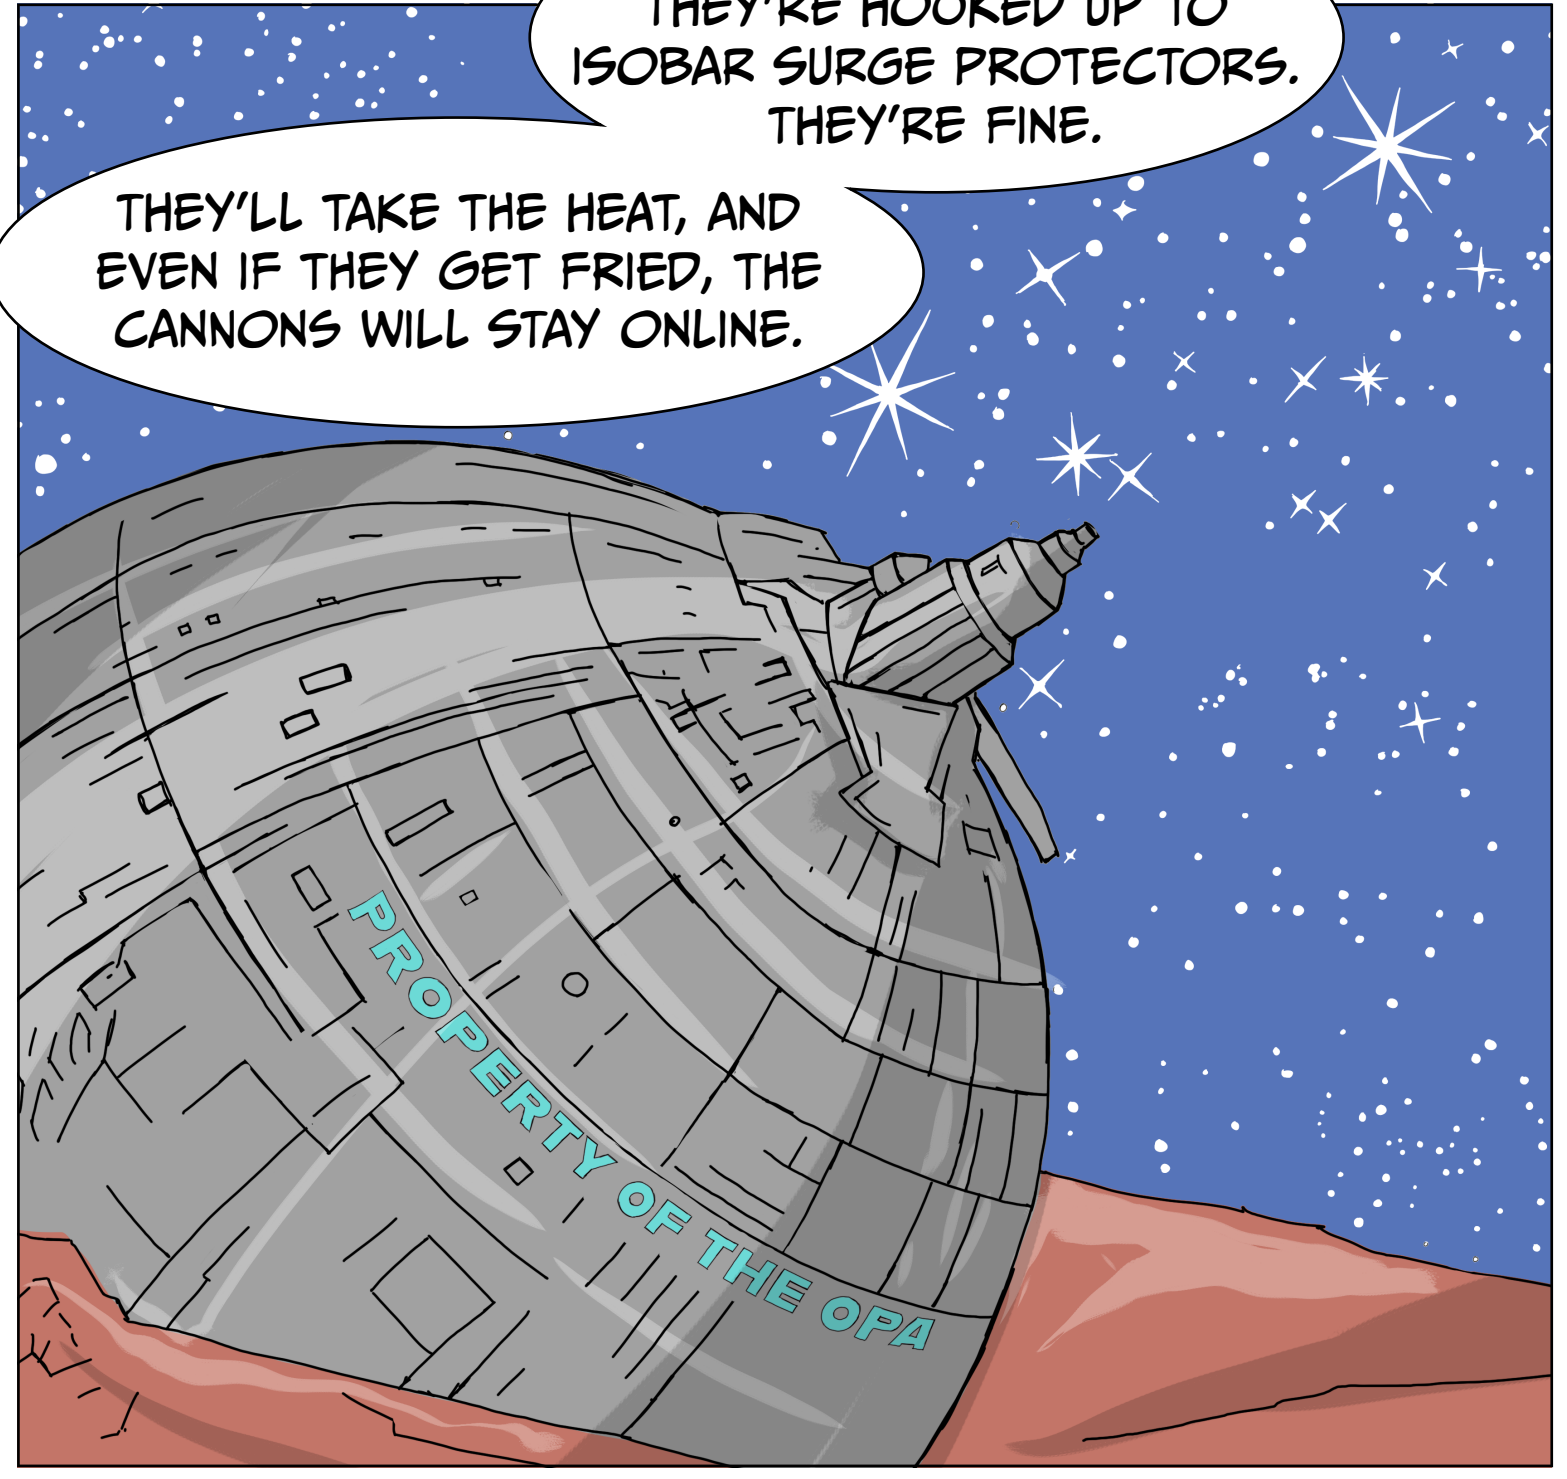

DR. DOWNTIME IS
TARGETING OUR
ION CANNONS BY
SENDING SURGES
THROUGH THE
POWER LINES.

THE ION CANNONS?
THEY'RE HOOKED UP TO
ISOBAR SURGE PROTECTORS.
THEY'RE FINE.

THEY'LL TAKE THE HEAT, AND
EVEN IF THEY GET FRIED, THE
CANNONS WILL STAY ONLINE.

PROPERTY OF THE OPA

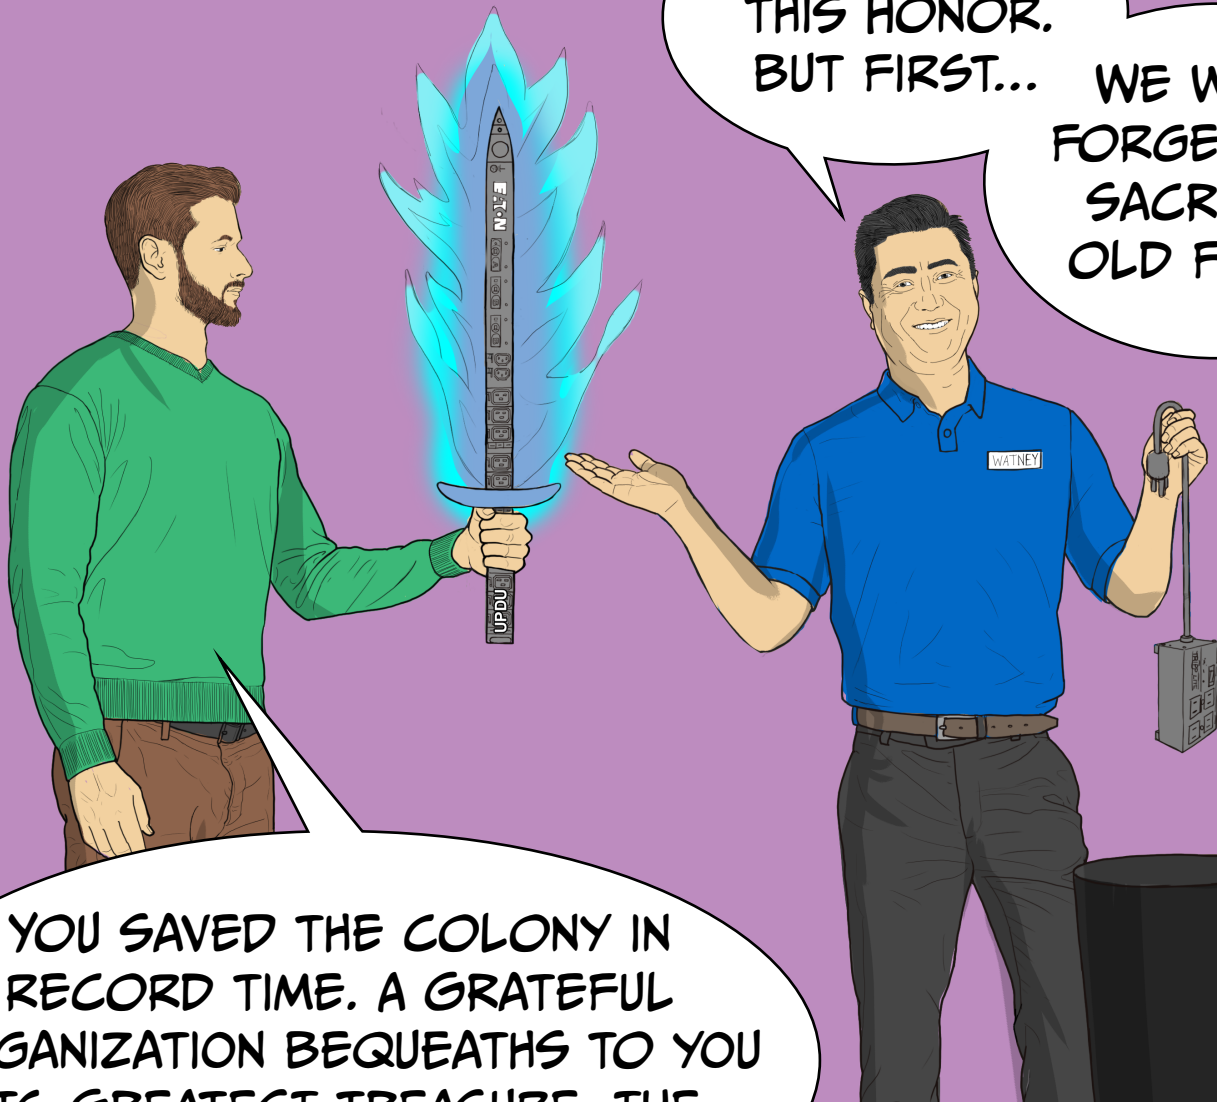

**DR. DOWNTIME'S MINIONS ARRIVE,
AND ARE GREETED WITH A SURPRISE.**

**MY SURGES
HAVE FAILED!**

**I ACCEPT
THIS HONOR.
BUT FIRST...**

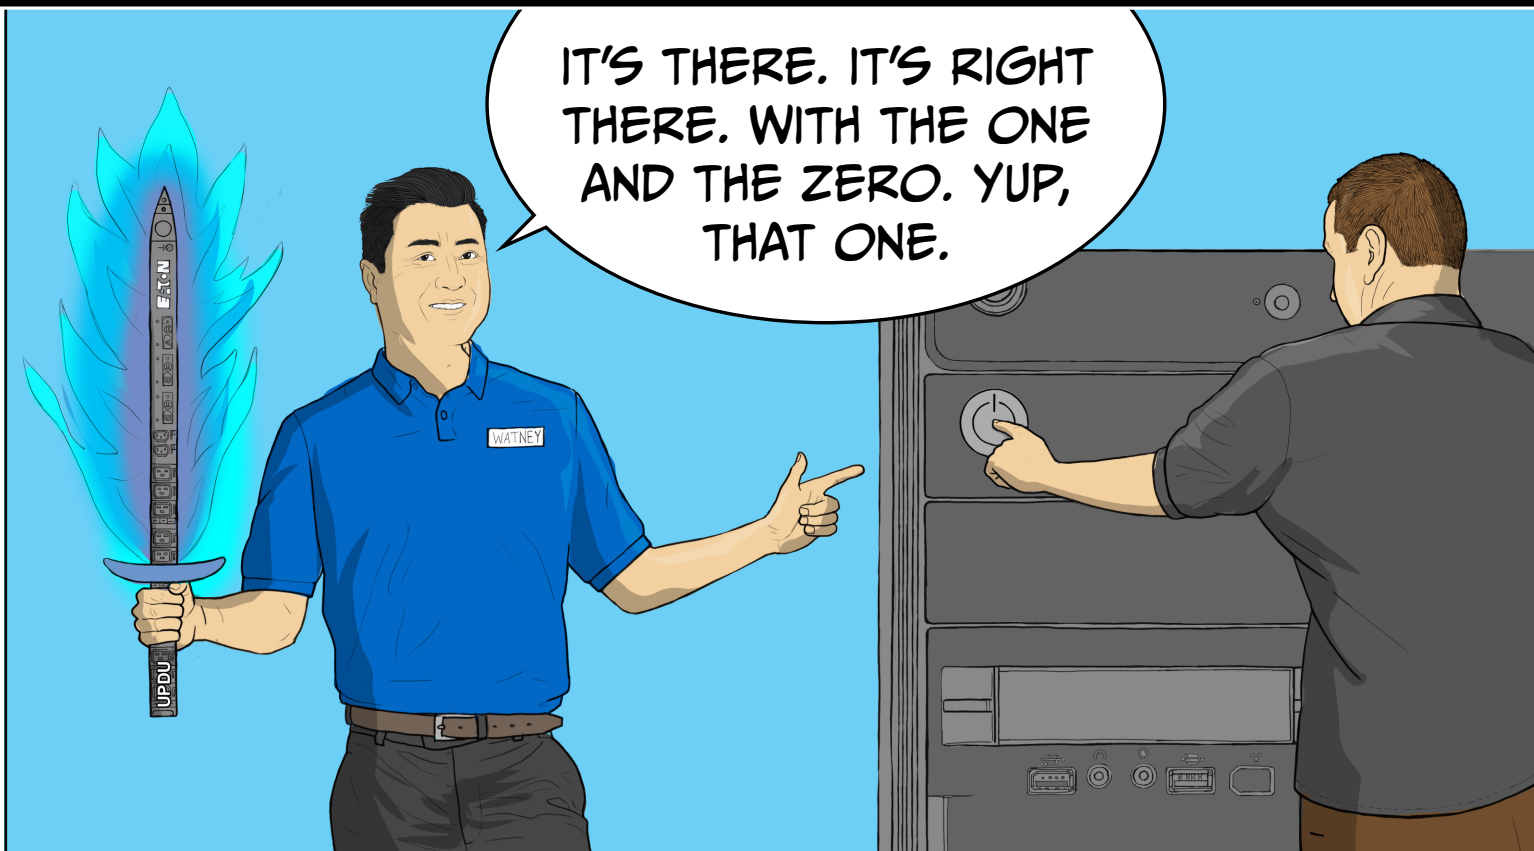

**WE WON'T
FORGET YOUR
SACRIFICE,
OLD FRIEND.**

**YOU SAVED THE COLONY IN
RECORD TIME. A GRATEFUL
ORGANIZATION BEQUEATHS TO YOU
ITS GREATEST TREASURE: THE
SWORD OF THE PDUNIVERSE!**

THE END. FOR NOW...

THE MIGHTY I.T. PRO DIDN'T REST UPON HIS LAURELS. STRAIGHTAWAY, HE INSTALLED NEW EATON SERVER RACKS WITH CABLE MANAGEMENT, INSTALLED COLOR-CODED POWER CABLES, DEPLOYED SPOT COOLING AND USED HIS NEWFOUND INFLUENCE FOR GOOD AND WORTHY CAUSES. AND FOR SOME NOT-SO-WORTHY CAUSES, LIKE TRAVELING 2 HOURS TO HELP A USER FIND THE POWER BUTTON ON THEIR PC.

TO DEFEAT DR. DOWNTIME, OUR I.T. HERO:

- DEPLOYED THE EATON SPX G2 UPS WITH A CYBERSECURE NETWORK CARD
- LEVERAGED NETWORK CARD TO UPDATE FIRMWARE ACROSS ALL NETWORKED UPSS
- DEPLOYED EATON SURGE PROTECTORS TO PROTECT CRITICAL SYSTEMS
